i18n

SELECTED EXPERIENCE

Box — Demo Engineer

June 2017 - PRESENT | New York, NY

- Designed, coded and maintained demo applications that positively impacted more than \$5 million in annual recurring revenue
- Led the effort to internationalize [the flagship Box API demo application](#) in four languages
- Worked with product managers to build [the very first Box Custom Skills](#)
- Circulated key demo news and assets to the global Sales Engineering team through quarterly newsletters and regional meetups
- Won a regional hackathon with [Box's answer to the Chrome T-rex](#)
- Tutored a first grader in reading once a week, leading in hours volunteered

Peatix — Head of Growth, North America

June 2013 - December 2015 | New York, NY

- Sourced, sold, onboarded, and supported organizers on the Peatix platform
- Collaborated with engineering team using Pivotal Tracker to document bugs
- Advocated for our users and prioritized new features with product, engineering and executive teams`

OTHER PROJECTS

HellYesCupid A single-page web app that emulates the dating site OkCupid

- Built an editable question and answer form with React, using the weighted responses to calculate geometric averages in order to produce meaningful matches
- Employed AWS S3 with Paperclip and Figaro to aid in scalable image uploads
- Harnessed Geokit and Airbnb's Rheostat to provide for fast filtering of matches by distance

EDUCATION

Stanford University — BA in Music (Trombone and Composition)

Palo Alto, California

- Additional coursework in programming abstractions and methodology
